INTRODUCTION

UMP-FSKKP Alumni Management System is a platform that allow university to digitally engage with their alumni. The main objective of this system is to develop a web based application that manage the information of UMP-ALUMNI. This management system is a user-friendly system that provide to administrator and alumni whether they are member or non-member. The system allow user to view the information such as history, organizational chart and contact number, the process of alumni memberships – flow chart or address and location without login. To become a member of the management system, the membership and registration process are register as a new member, update member information, membership approval by administration, view members and status, manage and update personal data whether add, edit, delete or update. After becoming a member, the member is allowing to join e-forum. Non-members are allowing to view restricted information. The administrator needs to approve membership status by batch, program and yearly. They also required to manage membership fee such as key in date of payment, number of years, total payment and proof of payment. They can view membership fee payment record and the payment fee for yearly is RM300 and life membership is RM600. The administrator needs to manage financial such as manage membership fee, cash donation or present and expenses. They can view status and financial report whether by yearly or monthly. They will update announcement board, update events and manage e-forum.

INTERFACE

Main Page

Figure (1): Main Page

Description: The system allow user to view the information such as history, organizational chart and contact number, the process of alumni memberships – flow chart or address and location without login.

Interface for Member

Figure (2): Member Login Page

Description: Member needs to login to the system before access to other function.

Figure (3): Member Registration Page

Description: Member needs to register before becoming a member to access the function of the system.

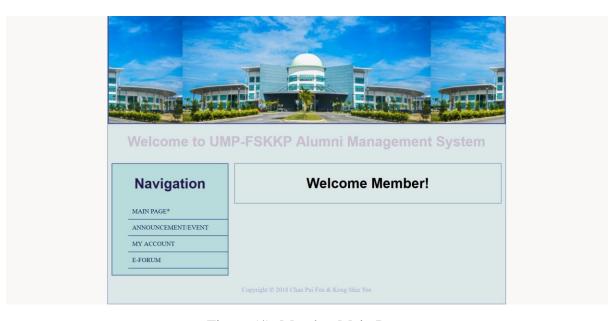

Figure (4): Member Main Page

Description: After member login successfully, the system will allow the user to enter the function of the member so that they can access the function.

Figure (5): Member Announcement and Events Board Page

Description: Member can check the announcement and events board that updated by the administrator.

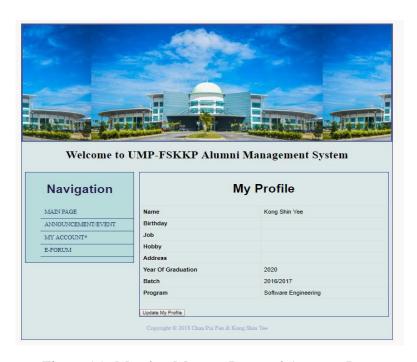

Figure (6): Member Manage Personal Account Page

Description: The system allows the member to update their personal data.

Figure (7): Member e-forum Page

Description: The member can join the e-forum so that they can have a connection with another member.

Interface for Admin

Figure (8): Administrator Login Page

Description: Administrator needs to login to the system before access to other function and manage the function.

Figure (9): Administrator Main Page

Description: After admin login successfully, the system will allow the admin to enter the function of the admin so that they can access and manage.

Figure (10): Admin Manage Membership Fee Page

Description: Admin can manage membership fee such as key in date of payment, number of years, total payment and proof of payment. They can view memberships fee payment records. The payment fee for yearly is RM300 and life membership is RM600.

Membership Fee ID	Payment Date	Years	Total Payment	Proof of Payment
1	07/08/2015	3	500	post laju
2	asa	0	asa	sas
3	08/05/2017	2	600	201365789

Figure (11): Admin Manage Membership Fee Report

Description: Admin can view the memberships fee payment records after they insert the membership fee.

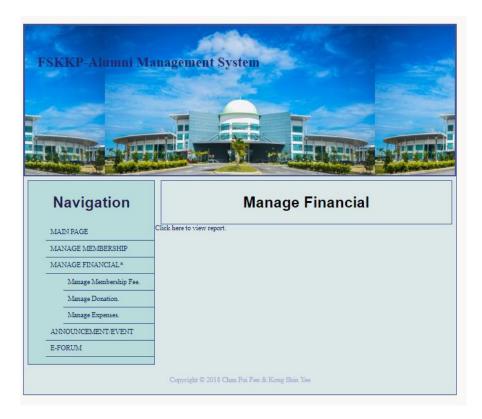

Figure (12): Admin Manage Financial Page

Description: Admin can manage financial and view the financial report.

	D Total Payn	ient Received Ye	ear Mont	h
3	3200	20	18 4	
4	1200	20	14 12	
7	sda	0	0	
8	dasd	0	0	
9	600	20	17.8	
Donation I	D Donation T present	ype Donation N Edna	ame Ame	ount Donation Date 24/08/2017

Figure (13): Admin Manage Financial Report

Description: Admin can view the financial report based on financial fee, donation and expenses.

Figure (14): Admin Manage Financial (Manage Membership Fee)

Description: Admin can manage financial like manage membership fee. Admin is responsible to manage membership fee.

Figure (15): Admin Manage Financial (Manage Donation)

Description: Admin can manage financial like manage cash donation or present. Admin is responsible to manage cash donation or present.

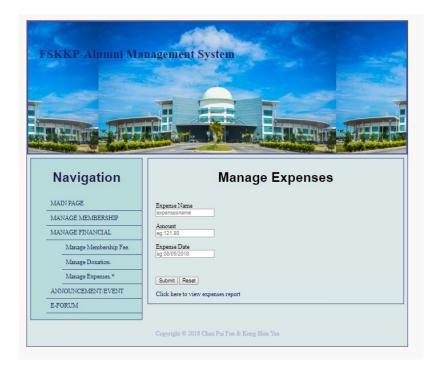

Figure (16): Admin Manage Financial (Manage Expenses)

Description: Admin can manage financial like manage expenses. Admin is responsible to manage expenses.

Figure (17): Update Announcement Board & Events

Description: Admins are responsible to update announcement board and events to allow the member to access.

Figure (18): Manage e-forum

Description: Admin needs to manage e-forum to allow the member to access.

Figure (19): Add New Admin Page

Description: Only admin can add new admin so that the new admin can manage the system.
